Sharps - Rifles

1874 Sharps rifle

"SHARPS PTD" The name that shooters and collectors all over the world dream about.

The Sharps Rifles, the reproduction of the most famous rifles of the American Civil War era. The range of rifles includes all the most significant versions among the paper cartridge and the metal cartridge models. All the models are drilled and tapped to install the Creedmoor sights and the front tunnel sights with interchangeable inserts, except for the military models.

Among the Sharps 1874 models you can find the Sporting model with octagonal blued barrel, adjustable front sight and double set trigger.

All the models are equipped with graduated rear sight with sliding plate and are drilled and tapped to mount a Creedmoor sight. The Sporting model can be completed with tunnel front sight with interchangeable inserts.
