

Feinwerkbau Air Pistols

	<p>FWB P44 Air Pistol</p>
	<p>\$2,090.00 – Right Hand \$2,165.00 – Left Hand</p>
<p>Model P44 is the Feinwerkbau high-quality compressed air pistol with exposed barrel. Besides elegant design the air pistol is designed to perform due to it's high-quality technique and best finish.</p> <p>The recoil impulse is nearly eliminated due to the integrated absorber. The recoil impulse is compensated via a tungsten alloy piston working in the direction of the barrel. Barrel ports and the Feinwerkbau separator on the front-end of the barrel additionally improve the shooters control.</p> <p>The sighting of this air pistol can be varied in length and shifting from -15° to +15° is possible. The three-dimensional-grip is available in five different sizes as right- and left-handed version. The grip can be rotated horizontally as well as vertically. The trigger point is finely adjustable. The trigger slack weight is adjustable from 220 to 500 grams. The trigger point weight is adjustable between 80 and 300 grams. The air pistol trigger shoe can be rotated and swiveled. Furthermore it can be tilted via a ball and is therefore adjustable three dimensionally. So the shooter has total control before shooting – and this with a total weight of only 950 grams.</p> <p>Be inspired by the innovative functioning of the trigger components and the high-quality finish of this air pistol. The P44 is delivered in a special transport case including a compressed-air cylinder with integrated manometer.</p>	

	<p>FWB P44 Air Pistol (short)</p>
	<p>\$2,090.00 – Right Hand \$2,165.00 – Left Hand</p>
<p>Model P44 is also available with a short barrel. The weight is reduced due to a shorter barrel and a shorter compressed-air cylinder to only 870 grams.</p> <p>The quality and the trigger technique remain the same as on air pistol Model P44. The sight line length is adjustable from 310 to 345 mm. The air pistol is delivered in a special transport case including a short compressed-air cylinder with integrated manometer.</p>	

FWB P58 Air Pistol (5 shot)

\$2,645.00 – Right Hand

\$2,715.00 – Left Hand

The **Model P58** is the five-shot air pistol of Feinwerkbau.

Beside an exclusive design, this air pistol comprises elaborated technique. The trigger shoe of this pistol can be rotated and swiveled. Furthermore it is adjustable in height and length. The anatomically formed three-dimensional walnut-grip enables an individual adaption to the shooter's hand. The front side base is prepared to accept different front sights and by the aid of the adjustable notch of rear sight best possible competition-results can be realized.

The Model P58 is delivered with a test magazine for ideal dry-firing. Furthermore the scope of supply includes a one-shot-magazine and a five-shot-magazine. The air pistol is delivered in a special transport case including a compressed-air cylinder with integrated manometer.
